Kia ora Koutou,

DairyNZ no longer wishes to be heard in support of our submission for Hearing Stream 5 Freshwater/Te Mana o te Wai.

Due to the changes brought in through variation 1 as well as the recommendations in the Section 42A Hearing Report dated 20 October, our key submission points are no longer relevant.

Our remaining points do not warrant a hearing slot and instead are stated as below;

- DairyNZ ask the Hearing Panel to consider whether Objective 12 and the provisions relating to Te Mana o te Wai reflect sufficient community feedback, particularly from rural communities who have yet to complete the Whaitua Implementation Programme in their Whaitua.
- DairyNZ ask the Hearing Panel to consider the extended uncertainty regarding the status of the mana whenua/tangata whenua Statements of Te Mana o te Wai included in appendix 1.

We apologise for any disruption to your hearing schedule.
Please contact me if you require any further information.

Ngā mihi,

Anna Sing
