Request for information 2025-122

I refer to your request for information dated 8 April 2025, which was received by Greater Wellington Regional Council (Greater Wellington) on 8 April 2025. You have requested the following:

"I am writing to request information under the Local Government Official Information and Meetings Act regarding the status and operation of electronic bus stop displays in the Wellington Region. Specifically, I seek the following information:

- 1. The number of electronic bus stop displays that have been out of operation within the Wellington Region.*
- 2. The duration for which each of these displays has been non-operational.*
- 3. Details on whether any decisions have been made not to reactivate these displays following the completion of associated roadworks or other relevant projects.*

I would appreciate receiving this information in a clear and concise format. If any part of my request cannot be fulfilled, please provide the reasons for this and advise me of any options for refining my request."

Greater Wellington's response follows:

Greater Wellington has six different types of Real Time Information (RTI) signs. Please refer to **Attachment 1** which presents all of the RTI signs across the bus, rail, and ferry network.

The attachment shows the number of RTI signs in operation (green cells), and the number that are disconnected (red cells) as of 9 April 2025 when this report was pulled for this request for information.

As you can see from the attachment:

1. There were four Bann 3 Line* screens disconnected when last checked on 8 April 2025.
2. We do not keep information relating to how long the screen has been disconnected for. This information is therefore refused under section 17(e) in that the document alleged to contain the information requested does not exist or, despite reasonable efforts to locate it, cannot be found. When refusing under this section we are required to consider consulting the requester. We have considered this and do not believe it would change our decision to refuse this aspect of your request.
3. All Real Time Information displays installed in the current bus, rail and ferry network are to be reconnected and returned to operation. This generally occurs as soon as possible once all associated repairs, civils works, and certifications are complete. Any non-operational display within the network now, is either awaiting on repairs or the reconnection of a power supply following a temporary disconnection.

*Bann 3 Line means the smaller 3-line RTI screens e.g.:

If you have any concerns with the decision(s) referred to in this letter, you have the right to request an investigation and review by the Ombudsman under section 27(3) of the Local Government Official Information and Meetings Act 1987.

Please note that it is our policy to proactively release our responses to official information requests where appropriate. Our response to your request will be published shortly on Greater Wellington's website with your personal information removed.

Nāku iti noa, nā

A handwritten signature in blue ink, appearing to read 'sugar', followed by a small dash.
